

Post-16 pathways

The flowchart below asks you some key questions, to help you consider the differences between the pathways available to you after secondary school. The results are intended to be a guide, not definitive. Your responses to the questions may not be as simple as choosing one way or another - you may not mind either. Likewise, your result may not be the only pathway that suits your preferences. For these reasons, we strongly recommend that you discuss the results with a careers adviser.
